

### 3.5 Tepelný výkon

Následující tabulka uvádí hodnoty tepelného výkonu  $P_{t0}$  (kW), pro jednotlivé velikosti převodovek podle vstupních otáček. Hodnoty byly vypočítány za použití syntetického oleje ISO 320. V kap. 1.4 naleznete korekční koeficienty.

### 3.5 Thermal power

The following table shows the values of thermal power  $P_{t0}$  (kW) for each gearbox size on the basis of ratio and input speed. The values have been calculated considering the utilization of synthetic oil ISO 320. See chapter 1.4 for the corrective coefficients.

### 3.5 Thermische Leistung

Die folgende Tabelle enthält die Werte  $P_{t0}$  der thermischen Leistung (kW) je nach Getriebegröße und abhängig von Untersezung und von Drehzahlen am Getriebeantrieb. Die angegebenen Werte beziehen sich auf Schmierung mit synthetischem Öl ISO 320. Im Abschnitt 1.4 finden Sie die Korrekturkoeffizienten.

Tab. 2
